

Business Process Analysis & Transformation

“Master the relationship between your enterprise and its internal functions”

- Implement Process Change
- Skills to identify Business processes
- Plan, Conduct, implement process change
- Aligning IT Strategy
- Evaluate level of integration between business processes

Course Overview

Enterprises are driven by and organized around Business Processes. Efficient and effective processes contribute to responsive, productive and profitable enterprises. Remaining focused on our ROI concept, three elements will be used to facilitate this behavior: Business Process Analysis, Process, and Design. You will learn an effective set of skills, techniques, and methods for identifying, mapping, measuring, and analyzing processes and practices for improvement within your enterprise.

Who Should Attend?

This course is designed for business and operational managers and supervisors, and anyone involved in analyzing, managing, or improving business processes, practices and business rules in and across their organization. It also includes System Analysts, Process Analysts, and Application Developers.

SVA Mission

As a team of master educators, SVA is committed to improving the bottom line and achieving fast sustaining ROI of our clients. Moreover, understanding that our associates are our greatest assets, we've coined the phrase "people first," as a constant reminder to the foundation of our success.

National Certification

Upon completion of the course, students will be issued a national recognized certificate accredited through SVA, known as the *Business Process Analysis & Transformation Certificate*. The certificate is nationally documented by numerous Fortune 500 companies, and will give any management team the certification necessary to remain competitive and versatile in today's global market.

“SVA Certification Programs, education for tomorrow's decision makers.”
