

Collaborative Team Based Problem Solving

“training to meet the demands of the ever-changing customers’ requirements”

- Learn a unique problem solving process
- Meet customer demands
- Empower your employees
- Become a collaborative solution developer
- Start your proactive team today with SVA

Course Overview

Meeting a constant change in demand takes skill, proactive teams, and an efficient organization. This course is designed to develop competent management teams, ready to meet the demands of the ever-changing Customers requirements. Collectively, individuals will learn problem solving techniques that will allow them to defeat any obstacle facing an organization.

Who Should Attend ?

Management teams looking to reconstruct, energize, and strengthen their problem solving capabilities should attend. Associates, managers, and teams alike will learn to efficiently allocate their resources. Mastering this concept will develop a cooperative corporate culture, but also ensure ROI.

SVA Mission

As a team of master educators, SVA is committed to improving the bottom line and achieving fast sustaining ROI of our clients. Moreover, understanding that our associates are our greatest assets, we've coined the phrase “people first,” as a constant reminder to the foundation of our success.

National Certification

Upon completion of the course, students will be issued a national recognized certificate accredited through SVA, know as the Collaborative Team Based Problem Solving Certificate. The certificate is nationally documented by numerous Fortune 500 companies, and will give any management team the certification necessary to remain competitive and versatile in todays global market.

“SVA Certification Programs, education for tomorrows decision makers.”
