

# Lean Operations Execution

*"Procedures and tools that identify and eliminate waste;  
creating a lean and competitive organization"*

- Kaizen and Kanban Development
- Waste Elimination
- Lean Process Improvement
- Lean Product Development
- Standard Work
- Continuous Improvement

## Course Overview

Lean Operations is the philosophy of Service, Retail, Health, Engineering, Finance and Production environments that emphasizes the minimization of the amount of all the resources (including time) used in the various activities of the enterprise. It involves identifying and eliminating non-value-adding activities in design, production, supply chain management, and dealing with the customers.

## Who Should Attend?

This two-day intensive workshop will outline and respond to a Lean Enterprise: an organization with a focus on waste elimination and the customer's needs in all parts of its operations, manufacturing, and administration. Creating an environment prepared to meet the challenges of continuous improvement.

## SVA Mission

As a team of master educators, SVA is committed to improving the bottom line and achieving fast sustaining ROI of our clients. Moreover, understanding that our associates are our greatest assets, we've coined the phrase "people first," as a constant reminder to the foundation of our success.

## National Certification

Upon completion of the course, students will be issued a national recognized certificate accredited through SVA, known as the *Business Process Analysis & Transformation Certificate*. The certificate is nationally documented by numerous Fortune 500 companies, and will give any management team the certification necessary to remain competitive and versatile in today's global market.

**"SVA Certification Programs, education for tomorrow's decision makers."**
