

Strategic Vision Alliance

- SVA is more than a business educator/business management provider.
- SVA is more than a Certificate Program with relevant Operations/Lean Supply
- SVA is more than a Mentoring Service, providing the industry best practices
- SVA is an integrated instrument based in education, training, and application of concepts designed to guide to a business through any desired transformation.

The Strategic Model

Strategic Vision Alliance is a model, which was developed years ago by the three founding partners of the Alliance. For over 25 years, each has honed their craft as educator and trainers and mentors to individuals and organizations attempting to improve the bottom line and achieve fast, sustaining ROI. This model has a different and unique approach to education. People first - the foundation of **SVA's** success. **SVA** believes that our associates are our greatest assets. **SVA** culture is the learning experience we create for our customers, which is demonstrated by the behavior of our associates. It is people serving people through an educational learning process. In the end, our hands on approach to learning and the tools and techniques developed through the alliance, strategic vision results.

Our Method

- Evident in the adage, "the customer is always right"
- A hands-on learning style, i.e., "by walking around" and understanding the detail of the issue-GEMBA
- Attention to Root Cause Solutions
- Openness to innovation and creativity in serving customers

Our Mission

We take pride in the knowledge that our customers can count on SVA's unique blend of quality of education, consistency of the learning experience and the degree of personalized service available

Quality without Compromise
